Progress:

No surprise out of 220 birds this morning, 70 were Chiffchaffs, with an impressive movement of 37 Blackcaps too.

Reed Warblers now putting down fat, but we suspect the main movement of Sedge Warblers is over, only 14 today.

4 Garden Warblers, Lesser Whitethroat, 2 Kingfishers, Treecreeper, Cetti's, 2 Goldcrest & a Grey Wagtail added some real variety.

Also a Caloptilia sp. moth...(id. taking place now) is likely to be a new county record.
