

St Dogmaels Improvements: Phase 2—Alternative Routes

Location: St Dogmaels

Playing Fields (Orange Route)

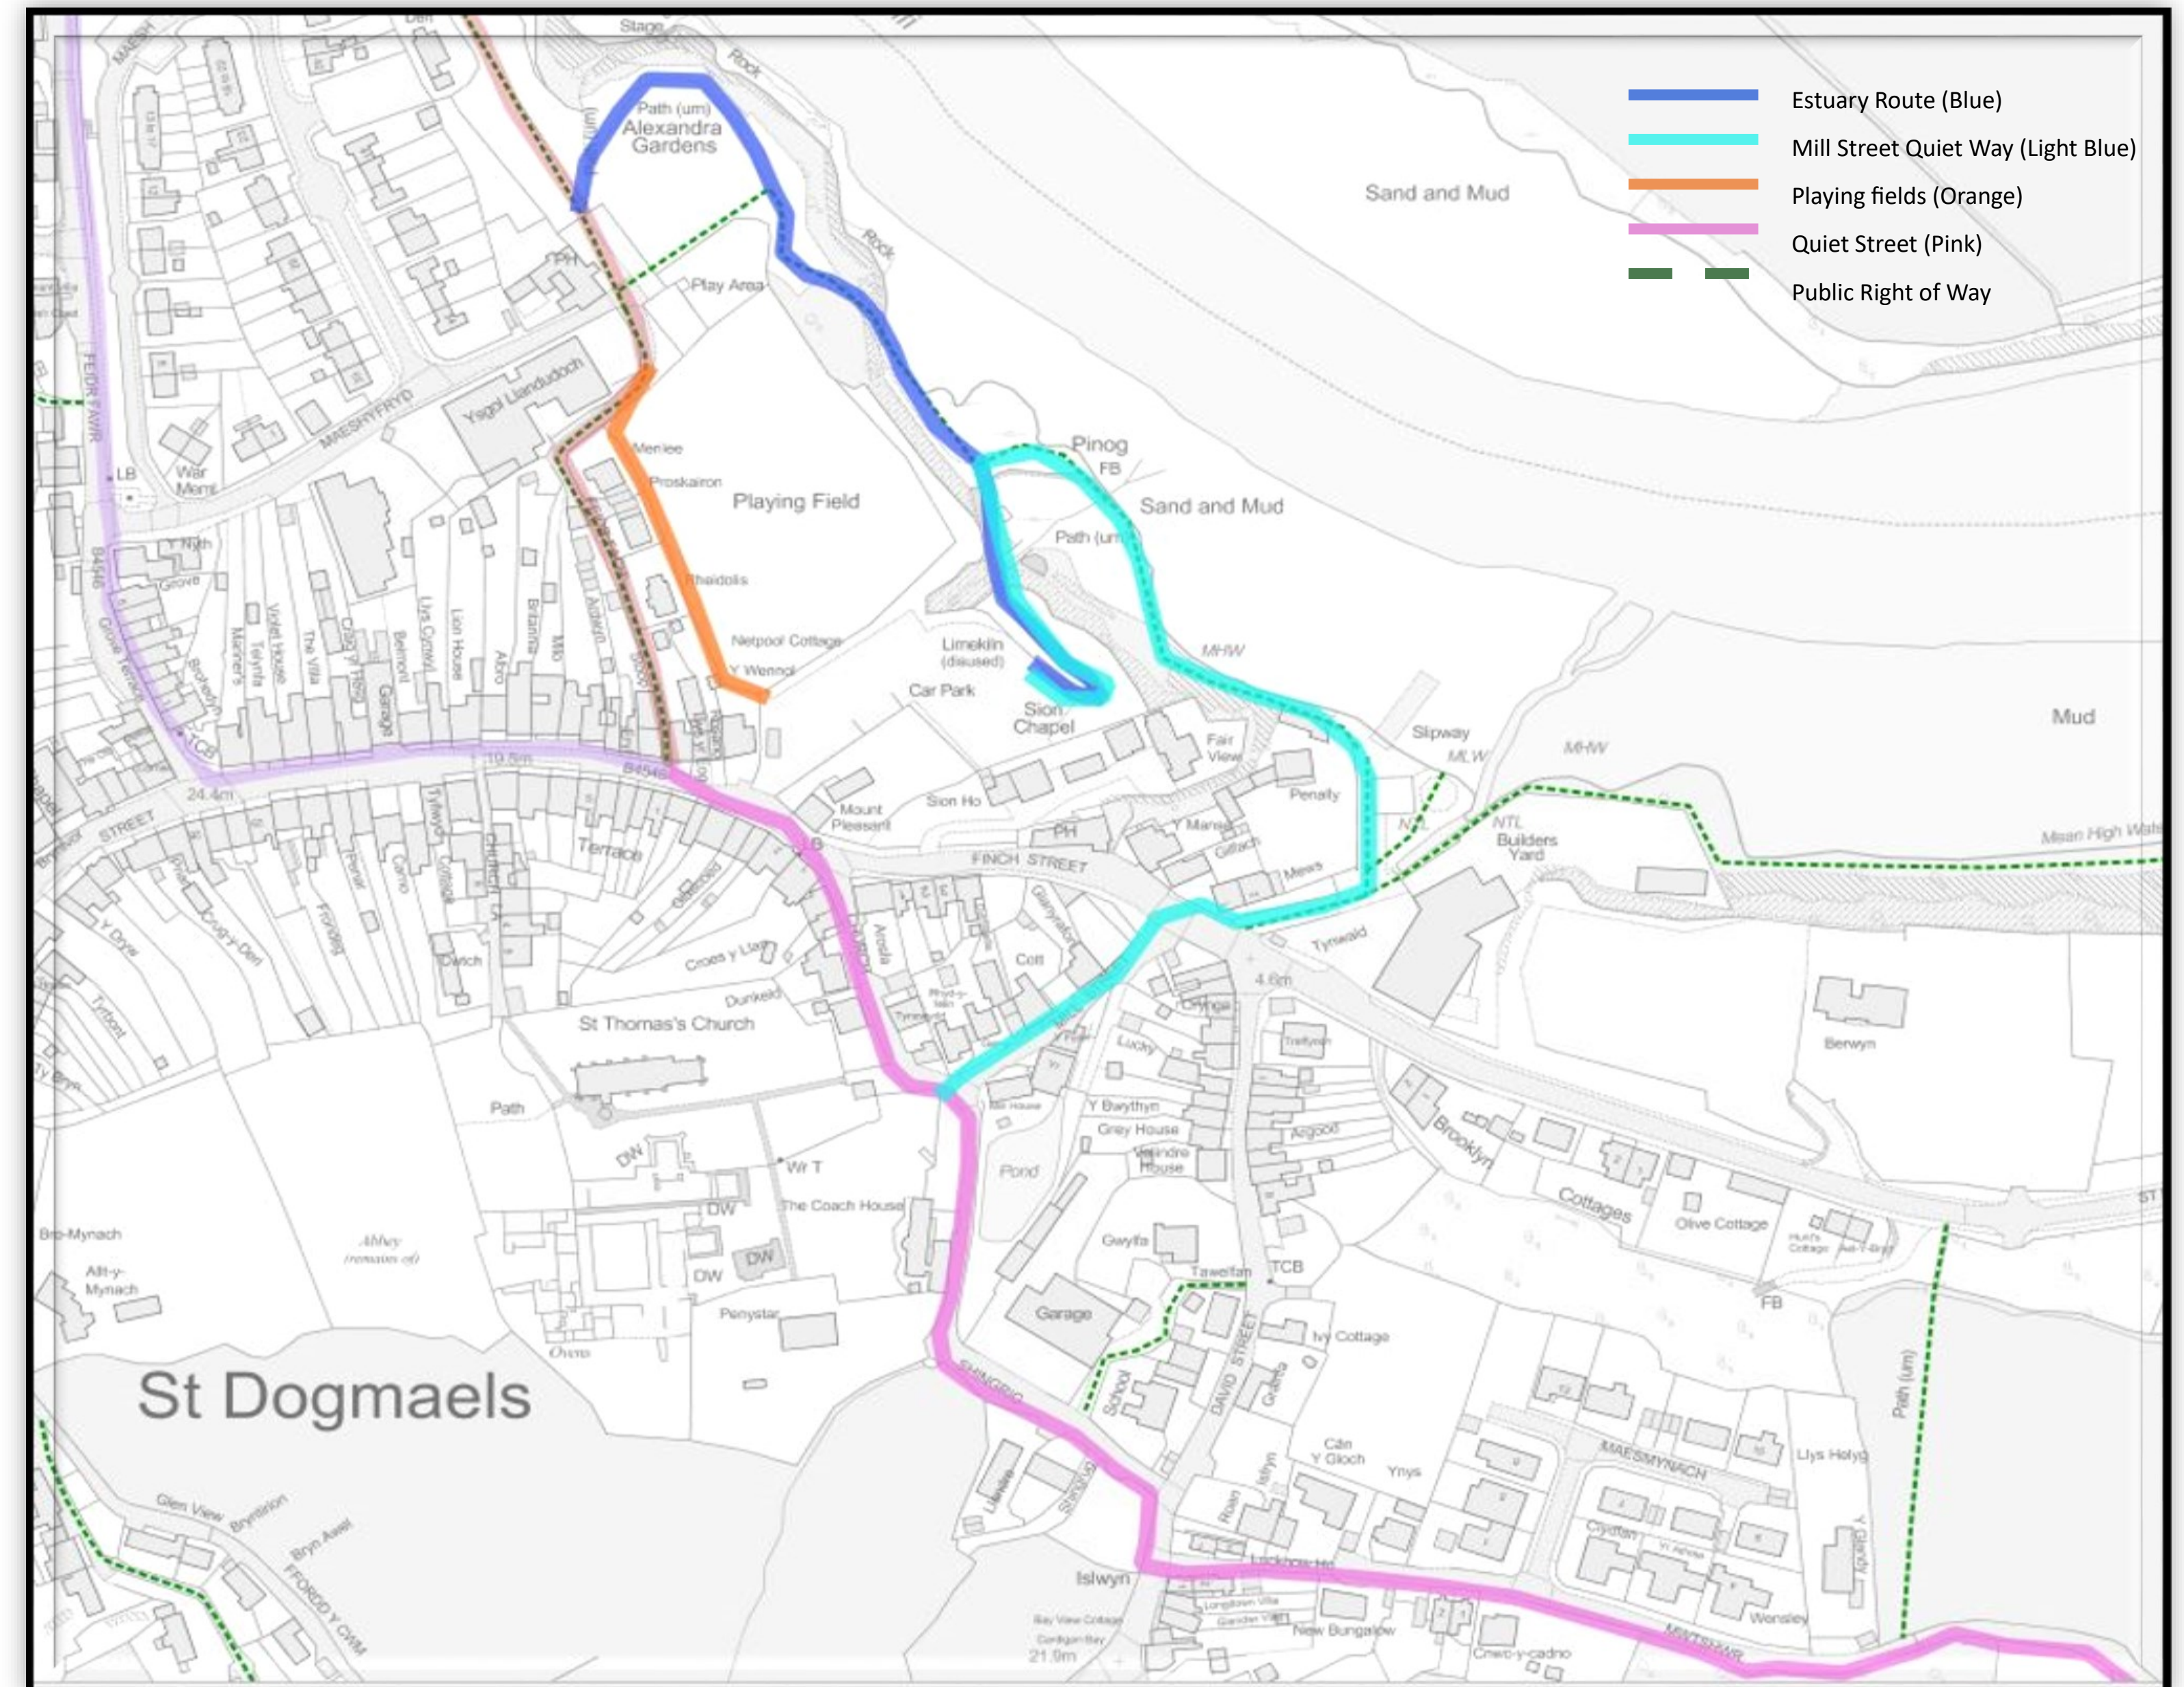

- Alternative option to Boardwalk Route (Red route)
- Would require ability to gate either end and/or fence off from playing fields.
- Not current PRow or formed route, would need to be completely started
- Priority : 3

Quiet Streets (Pink route)

- Using existing infrastructure and quiet ways for east of the village
- Preferred option to the East, due to improved connectivity
- Would require upgrade to route to provide a safe, user friendly connection forming a Shared Use Path
- Could be advanced following development of current designs; likely Phase 2
- Priority: 4

Mill Street Quiet Way (Light Blue Route)

- Alternative quiet way route to Quiet Streets (Pink route)
- Less desirable due to estuary tidal range
- Less direct connectivity along narrow, quiet streets
- Priority: 5

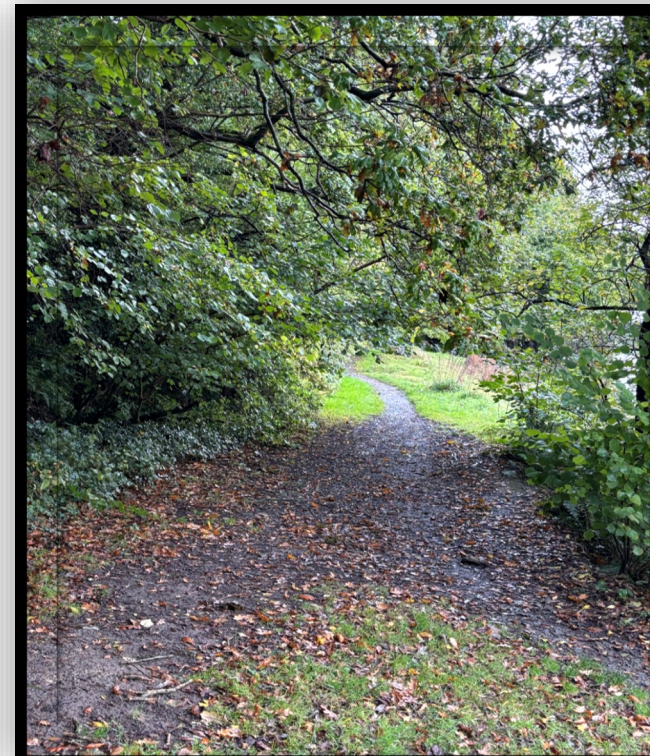

Section of Mill Street Route

Section of Quiet Street Route

Section of Estuary Walk Route

Estuary Walk (Blue Route)

- Not a feasible route as not currently PRow and within estuary tidal area
- Left in as original option
- Will not be advanced further
