Pembrokeshire Local Development Plan (LDP) 2: 2022-based household projections

It has come to our attention that new population and household projections were issued by StatsWales on 20 November 2025. These supersede the previous 2018-based projections, on which the housing requirement identified in LDP 2 is based.

The revised household projections for local authorities are available at:
<https://www.gov.wales/local-authority-household-projections-2022-based> and
<https://stats.gov.wales/en-GB/a2102ed7-52ff-4f58-a7eb-750b06bb8fa8>

At the time of writing it does not appear that projections for national parks have been released. Nonetheless, given the significance of published household projections to the plan's strategy, to assist the examination we request that you review the published 2022-based projections for Pembrokeshire and submit a brief paper identifying any potential implications for LDP 2, so far as is reasonable in the absence of any published 2022-based figures for the Pembrokeshire Coast National Park.

We request that this paper is submitted no later than 16th March 2026.

Please contact us via the Programme Officer if you have any questions about this letter.
